AFRISO-EURO-INDEX GmbH - Compliance confirmation concerning regulations on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

Dear customers,

AFRISO-EURO-INDEX GmbH undertakes all necessary efforts to comply with all applicable laws and regulations, including the requirements of the REACH Directive 1907/2006 in the currently valid version.

As a manufacturer of electrical and electronic devices as well as products which, by themselves, are not to be classified as finished electrical or electronic equipment but which can be used as assemblies or components and components in such equipment, AFRISO-EURO-INDEX GmbH is of the opinion that the REACH legislation plays an important role in protecting human health and the environment from the risks that chemicals can pose.

AFRISO-EURO-INDEX GmbH itself does not manufacture substances or mixtures. Our products and their packaging are products which, under normal conditions, do not release any substances as intended. Accordingly, we are not currently obliged to register in accordance with the provisions of the REACH regulation.

We are in constant contact with our suppliers in order to meet, the greatest possible care, our obligation to provide information on the presence of substances that have been identified by the European Chemicals Agency ECHA as candidates for inclusion in Annex XIV of the REACH regulation (so-called "candidate substances"). On the basis of this data obtained through careful evaluation concerning the presence of individual of the currently 250 substances (as of June 25, 2025) in our products, we inform you with the present letter and the associated annex in accordance with Article 33 of the REACH regulation, provided that these substances are contained in the product with a concentration > 0.1 mass-percent. Accordingly, no information is provided for those products that do not contain any candidate substances in the corresponding concentration. Please refer to the annex for details on the identity of the candidate substance as well as any necessary information on safe use. We continuously monitor candidate list for extensions and respond promptly to changes.

Annex: REACH Statement - Part Numbers

Kind regards,

Dr.-Ing. Jan Späth, Managing Director Technology
