

A SIKA COMPANY

PRODUCT FOCUS

PLUMBING

THE CENTRAL HEATING TREATMENT SYSTEM

Our advanced **three stage solution** utilises **high performance and rapid response formulas** teamed with **technical expertise** to effectively optimise your **detection, delivery and treatment** across central heating systems.

Visit Everbuild.co.uk/Plumbing for more details.

WITH
**EXPERT
TECHNICAL
SUPPORT**

THE RIGHT PRODUCT FOR EVERY PROBLEM

Over time, systems can accumulate **limescale, sludge, bacteria, fungicide, rust, etc.** The Everbuild Central Heating Treatment System makes it **easy to effectively prevent** as well as **fix all the common problems** that this can cause:

- Radiators not heating up properly or having cold patches
- Reducing the efficiency of pipes
- Pipes becoming blocked
- Small leaks or pin holing which may cause pressure loss
- The building up hydrogen gassing which require regular bleeding
- Noisy radiators
- The failure of key parts in the system, e.g. the pump, heat exchanger.

ENHANCED PERFORMANCE

P24 Power Cleaner Central Heating System

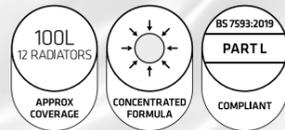

| CODE | SIZE | COLOUR | BOX QTY | BARCODE |
|----------|-------|--------|---------|---------------|
| P24CLEAN | 500ML | - | 12 | 5055492703774 |

P24 Power Cleaner is a high-strength, universal, rapid liquid cleaner for all central heating systems.

It is designed to remove all debris, sludge, flux and scale from existing systems - its high-strength formulation makes it ideal for use for both new and older systems with heavier build-up.

Removes:

- Sludge & sludge deposits
- Debris & hardened debris
- Limescale
- Flux
- Rust
- Oil & grease.

- REMOVES SLUDGE, FLUX, DEBRIS & SCALE
- SUITABLE FOR ALL CENTRAL HEATING SYSTEMS
- INCREASES HEATING EFFICIENCY AND EXTENDS THE LIFE OF BOILERS

*when tested in lab conditions

P26 Biocide Underfloor & Central Heating System

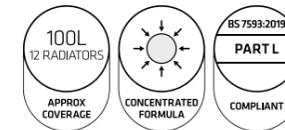

| CODE | SIZE | COLOUR | BOX QTY | BARCODE |
|------------|-------|--------|---------|---------------|
| P26BIOCIDE | 500ML | - | 12 | 5055492703781 |

P26 Biocide is a high-strength, rapid attacking biocide designed for use with all central heating and underfloor heating systems.

This product contains three active biocidal ingredients that rapidly acts to eliminate and prevent further formation of fungicide and bacteria in heating systems.

Cleans and prevents the reoccurrence of:

- Algae
- Pseudomonas
- Fungicide
- Biofilm
- Legionella
- Sulphite reducing bacteria (SRBs).

P28 Filter Fluid Central Heating System

| CODE | SIZE | COLOUR | BOX QTY | BARCODE |
|----------------|-------|--------|---------|---------------|
| P28FILTERFLUID | 500ML | - | 12 | 5055492703798 |

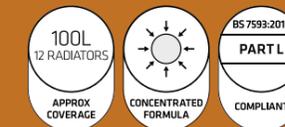

P28 Filter Fluid has been specifically developed to penetrate, release and lift magnetite deposits and contaminants. Debris is delivered directly to the in-line filter for fast and safe removal.

Magnetite particles are over five times heavier than water and tend to settle in less turbulent areas of the system and cannot be captured by the filter.

Advantages of P28 Filter Fluid:

- Suitable for systems already treated with inhibitor
- Increases capture rate of circulating solids, not just suspended black iron oxide sludge by in-line filters
- Suitable for use with all types of filters
- Suitable for use in all types of water.

TOTAL PROTECTION

P30 Protector Central Heating System

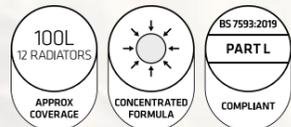

| CODE | SIZE | COLOUR | BOX QTY | BARCODE |
|--------------|-------|--------|---------|---------------|
| P30PROTECTOR | 500ML | - | 12 | 5055492703811 |

P30 Protector is a high performance, long lasting, easy to use inhibitor that protects domestic heating systems against internal corrosion, limescale and hydrogen gassing.

This product has enhanced pH buffering capabilities to ensure the system water pH level does not drop below 8.0 or exceed 8.5 – the most optimum pH range for preventing limescale and corrosion build-up.

Actively protects against:

- Corrosion
- Limescale
- Debris
- Hydrogen gassing.

- SUITABLE FOR ALL CENTRAL HEATING SYSTEMS
- INCREASES HEATING EFFICIENCY
- PROVIDES LONG-TERM PROTECTION AGAINST CORROSION

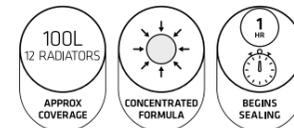

P32 Leak Sealer Central Heating System

| CODE | SIZE | COLOUR | BOX QTY | BARCODE |
|---------------|-------|--------|---------|---------------|
| P32LEAKSEALER | 500ML | - | 12 | 5055492703804 |

P32 Leak Sealer is a rapid, internal leak sealer that is designed for central heating systems suffering from small, inaccessible leaks and weeps which may cause pressure loss.

Once added to the system, the product locates the area of water loss and forms a soft barrier to seal the hole. P32 Leak Sealer is effective within 1 to 24 hours and has been tested and proven to prevent blockages or restrictions in system components.

- Permanently seals internal and inaccessible leaks
- Rapidly seals without blocking valves, pumps and air vents
- Compatible with all metals.

Magnetic Filter Central Heating System

| CODE | SIZE | COLOUR | BOX QTY | BARCODE |
|-----------|------------------|--------|---------|---------------|
| MAGFILTER | 22MM COMPRESSION | - | 1 | 5055492703828 |

Magnetic Filter is a powerful, high performance in-line magnetic filter with superior magnetic and non-magnetic collection capacity.

Benefits:

- Tested to 10 bar working pressure to ensure ultimate efficiency and high performance clean
- Flow rate of 50 L/min
- Superior 9000 Gauss Neodymium magnetic assembly
- Made from glass-filled, fibre reinforced nylon plastic
- 22mm compression fit - with valves.

Electrolytic Scale Inhibitors Hot Water System

| CODE | SIZE | COLOUR | BOX QTY | BARCODE |
|----------------|------------------|--------|---------|---------------|
| ELECIINHIBITOR | 15MM COMPRESSION | - | 10 | 5029347615888 |

Electrolytic Scale Inhibitor is a high performance, easy to use device that actively inhibits the binding of molecules that create limescale.

Benefits:

- Whole house protection
- Designed to last up to 10 years
- Provides immediate protection
- Tested up to 10 bar working pressure
- Saves energy costs
- No chemicals or power needed
- No maintenance required
- Environmentally friendly
- 15mm compression fit.

PROVIDES LONG-TERM, WHOLE HOUSE PROTECTION

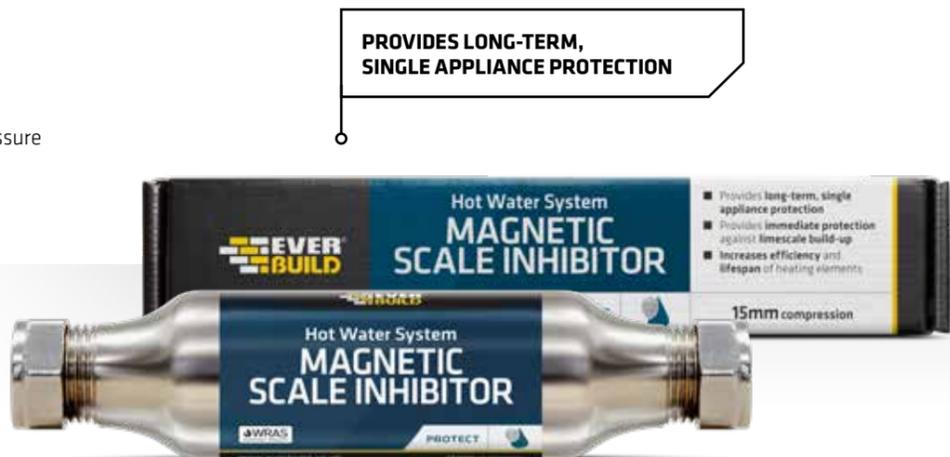

Magnetic Scale Inhibitors Hot Water System

| CODE | SIZE | COLOUR | BOX QTY | BARCODE |
|--------------|------------------|--------|---------|---------------|
| MAGINHIBITOR | 15MM COMPRESSION | - | 10 | 5029347615895 |

Magnetic Scale Inhibitor is a high performance, easy to use device that actively inhibits the binding of molecules that create limescale

Benefits:

- Single appliance protection
- Designed to last up to 10 years
- Provides immediate protection
- Tested up to 10 bar working pressure
- Saves energy costs
- No chemicals or power needed
- No maintenance required
- Environmentally friendly
- 15mm compression fit.

PROVIDES LONG-TERM, SINGLE APPLIANCE PROTECTION

Universal Protector Test Central Heating System

| CODE | SIZE | COLOUR | BOX QTY | BARCODE |
|---------------|------|--------|---------|---------------|
| PROTECTESTKIT | KIT | - | 50 | 5055492703835 |

Universal Protector Test is a kit that allows you to test and ensure the optimum amount of inhibitor fluid is in the system, effectively protecting the central heating system against build-up.

SUITABLE FOR CHECKING ALL BRANDS OF INHIBITORS

UNIVERSAL TEST FOR UP TO 50 SYSTEMS

This universal test kit is compatible with all inhibitors but is ideal when used in conjunction with Everbuild Central Heating System P30 Protector.

HELPS TO ENSURE INHIBITOR EFFICIENTLY PROTECTS THE SYSTEM

How to use:

1

Fill the test vessel to the 10ml mark with mains water. Add drops of the inhibitor reagent, counting the number of drops until the solution turns orange/red.

2

Repeat the first process again with systems water. Count the number of drops of the inhibitor reagent until the solution turns orange/red.

3

If the difference in the number of drops for step 1 and step 2 is LESS than 5, add another bottle of P30 Protector. If the difference in the number of drops is EQUAL to or MORE than 5, the system is sufficiently protected.

SEALERS & COMPOUNDS

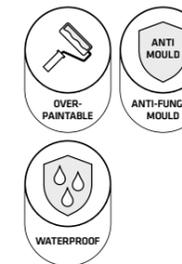

Trusted products are **tried and tested** by **leading** tradespeople on the most **demanding** of projects.

P13 Plumbers Putty

| CODE | SIZE | COLOUR | BOX QTY | BARCODE |
|--------|-------|--------|---------|---------------|
| PLUMB7 | 750GR | BEIGE | 12 | 5029347600655 |

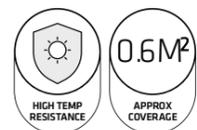

Plumbers Putty is a ready mixed, waterproof, non-setting putty designed for sealing and bedding w/c soil pipes, joints in sanitary wear, sinks and waste water fittings. Plumbers Putty will seal ceramics, vitreous enamels, metals and PVC. Remains permanently flexible to allow for joint movement.

P16 Plumbers PVC Pipe Cement

| CODE | SIZE | COLOUR | BOX QTY | BARCODE |
|---------|-------|--------|---------|---------------|
| P16PIPE | 250ML | - | 12 | 5029347607029 |

PVC Pipe Cement is a non-drip, thixotropic solvent based pipe cement for bonding nonpressure PVC and ABS thermoplastic pipes and conduits to themselves and each other. **CE Marked. Conforms to BSEN14814 and BSEN14680.**

P18 Plumbers Gas Leak Detector

| CODE | SIZE | COLOUR | BOX QTY | BARCODE |
|------------|-------|--------|---------|---------------|
| P18GASLEAK | 400ML | - | 12 | 5010618216101 |

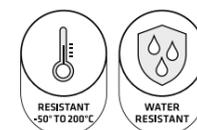

Gas Leak Detector is a specially formulated foam designed specifically to identify even the smallest positive pressure, gaseous leak. It is suitable for use with most common gases and is compatible with paintwork, metals, wood and most plastics.

P12 Plumbers Silicone Grease

| CODE | SIZE | COLOUR | BOX QTY | BARCODE |
|-----------|-------|--------|---------|---------------|
| P12GREASE | 200GR | - | 12 | 5055492703842 |

P12 Silicone Grease is a lubricant and sealant with excellent resistance to most chemicals, extreme temperatures and exceptional water resistance. It has low vapour tension up to 200°C, enabling low residual pressure to be achieved. P12 Silicone Grease is also chemically inert – it is non-corrosive on metals and has no plasticising effect on rubbers or plastics.

P20 Plumbers Flux Soldering Paste

| CODE | SIZE | COLOUR | BOX QTY | BARCODE |
|------------|-------|--------|---------|---------------|
| P20FLUX140 | 140GR | WHITE | 12 | 5029347613068 |

Plumbers Flux is a soft paste which is applied to joint areas prior to soldering. It is suitable for use with most metal types. It is self cleaning and can be used with potable water.

Plumbers Gold
Sealant & Adhesive

CAN BE APPLIED
TO WET SURFACES

WILL EVEN WORK
UNDERWATER

| CODE | SIZE | COLOUR | BOX QTY | BARCODE |
|----------|-------|--------|---------|---------------|
| PLUMBGCL | 290ML | CLEAR | 12 | 5029347607081 |
| PLUMBGWE | 290ML | WHITE | 12 | 5029347607074 |

Specially formulated for the plumbing professional.

Plumbers Gold is a sealant and adhesive based on hybrid polymer technology that offers outstanding adhesion to all sanitary, bathroom, wetroom, kitchen and plumbing materials.

Brick / Timber / Metal / PVCu / Glass
