

KANSAS

Western Vistas Historic Byway

Kansas' First Historic Byway

WANTED:

Travelers with a pioneering spirit

You are invited on a 102 mile historic journey. Imagine an ancient ocean covering what is now grassland and limestone pillars. Imagine hundreds of thousands of buffalo grazing, the struggle for life amongst strangers, the wind blowing fiercely and the uncertainty of the next step, just to survive! There were pioneers who loved it and were eager to call it home, as are the residents of today.

This is Western Kansas and people ask "Can you see forever?" Sure feels like you can!
